

LAKE MUSKODAY

ART CLASSES

SUMMER 2009

Thanks to everyone who participated and helped to make the monthly art classes at the pavillion so special. Special thanks to Claire Gordon for her guidance. —Karen H.

Kids of all ages painted snakes and suncatchers, and molded clay.

Our finished projects.

Young painters, sculptors, and craftspeople enjoyed working at the easel, and with their hands. They explored color and texture with different mediums. Their work reflected the beautiful natural surroundings of Lake Muskoday.

It took teamwork to create tie-dyed t-shirts on July 4th! A fun crowd showed up to participate.

We also made patriotic red, white and blue wall plaques with craft sticks.

We made rain sticks filled with beans, that created a rattle sound like falling rain. We painted them with different colors and patterns.

The memory boxes we decorated were unique and fun to make. We covered them with shapes, puppies and stickers. We'll keep our treasures in them.

We made new friends, and had fun together. We are proud of our creations!
